

INKI ANTIMICROBIAL COVID DOOR DECAL

inkirpm
powered by inkifingus

Help keep your workplace healthy and safe with our Safe to Touch (Push Here) door decals using Antimicrobial Protection.

The protective decals contain Antimicrobial agents that inhibit and neutralise the growth of microbes on its surface, killing bacteria and viruses. Our door decals are Repositionable – non-damaging, surface-safe technology that can be applied to most surfaces, used for indoor and short term outdoor use applications. These long lasting decals have a life span of up to 365 harsh washes and reduce bacteria by 99.9%.

INSTALLATION

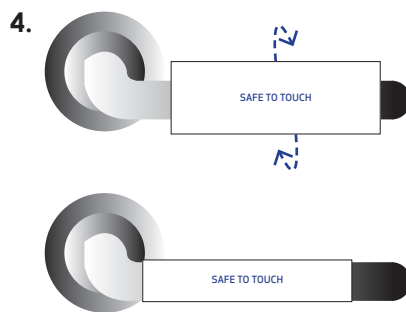

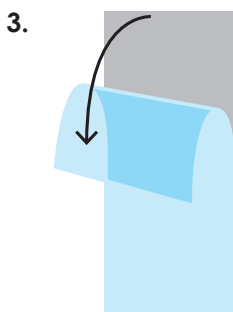

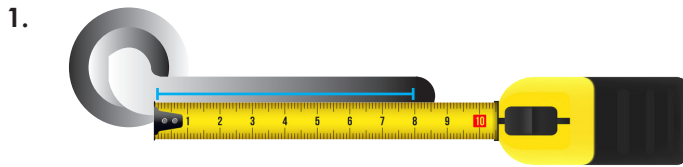

Applying door decal

1. Ensure your door is clean & dry
2. Peel away backing from film & place in position
3. Swipe hand across surface with even pressure until all air bubbles are eliminated

Applying door handle decal

1. Measure the length of your door handle
2. If necessary, trim decal to suit with scissors
3. Ensure your handle is clean & dry. Peel away backing from film
4. Place in position on handle and wrap around. Overlap may occur
5. Apply small label to door, close to handle or in a visible area.
